

E-LEARNING

WITH PROMAX ANALYZERS

A SINGLE ANALYZER FOR ALL THE TECHNOLOGIES AVAILABLE TODAY

TIME WINDOWS

The teacher sets a time interval so each student can take remote control of the analyzer and put their knowledge into practice.

CONNECT THE ANALYZER TO THE INTERNET IN THE SCHOOL...

... SO THAT THE STUDENT CONTROLS IT FROM HOME

Thus, the student can demonstrate the knowledge acquired while being evaluated by the teacher, who may be in the school or also at his own home.

MULTIDEVICE

The analyzer is remotely controlled from the Internet browser. It is compatible with computers, tablets and smartphones.
